Technology Solutions Partner of **China-Greece Wellness Venture**

pc-project.gr

ONE PARTNER

One partner
for all your technology.

A new investment in Greece needs technology that works from day one — and someone who knows the local framework. PC PROJECT takes **full responsibility**, from the initial study to ongoing support.

THE CHALLENGE	THE PC PROJECT SOLUTION
Unfamiliar Greek tax framework	**Correct set-up** — fiscal registers, myDATA, e-invoicing
Many separate suppliers	**One contract** and one accountable contact for everything
No local IT team	**Managed IT** — your IT department, as a service
Distance from the property	**Remote monitoring** and on-site support
A tourist season with no room for downtime	**SLA** and preventive maintenance

Compliance with Greek fiscal requirements

Fiscal and invoicing systems are set up correctly before the business opens.

Fiscal registers
Installation, registration and maintenance.

myDATA integration
Automatic reporting to AADE.

E-invoicing
Issuing and transmitting invoices.

POS integration
POS, ERP and fiscal registers unified.

ROADMAP

From purchase to opening day.

A structured five-step process, with one project lead at every stage.

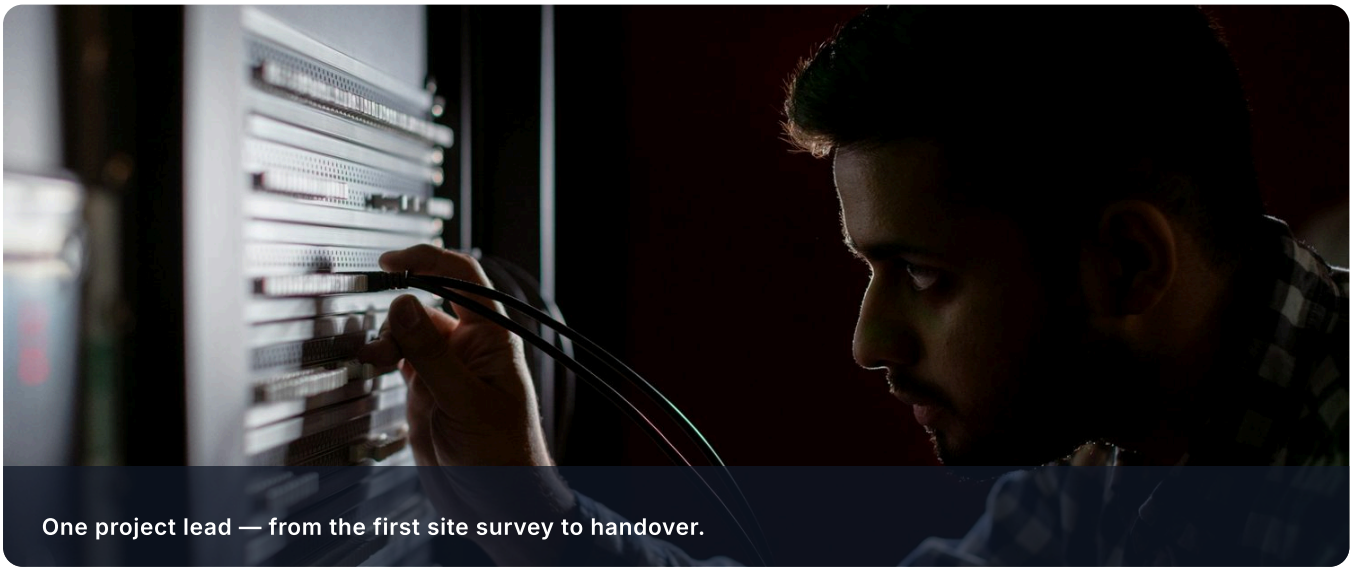

01 — Study & needs assessment
Site survey, requirements and business objectives.
Site survey · Requirements

02 — Design & proposal
Solution architecture, timeline and a documented quotation.
Solution design · Budget

03 — Installation
Networks, Wi-Fi, servers, POS, CCTV and access control.
Networking · Wi-Fi · POS · CCTV

04 — Compliance & training
Fiscal registers, myDATA, e-invoicing and staff training.
myDATA · e-Invoicing · Training

05 — Operation & support
Managed IT with SLA, remote monitoring and preventive maintenance.
Managed IT · SLA · Remote Monitoring

One project lead — from the first site survey to handover.
