Red Star (Red Star Macalline Supply Chain)

Red Star Macalline Supply Chain is affiliated to Red Star Macalline Home Group. Drawing on more than 30 years of experience in the building materials and home furnishing sector, it is a leading integrated bulk procurement platform for architectural and home decoration materials in China.

The platform integrates resources from a large number of source factories nationwide, covering a full range of construction and home products including building main materials, decorative panels, doors & windows, glass curtain walls, sanitary ware, furniture and soft furnishings. It boasts strong capabilities in centralized procurement, quality control, price coordination, cross-border supply and logistics delivery. It can provide packaged supply of complete sets of materials according to the requirements of overseas projects, support dynamic price adjustment and fund coordination for projects, and deliver stable, cost-effective one-stop material solutions for large overseas infrastructure, residential and desalination projects.

The company has a complete supplier screening system, product quality inspection standards and performance guarantee mechanism. It has obtained board approval, can complete platform signing quickly and set up a dedicated project team to coordinate material support for all parties, supporting the implementation of engineering projects in Greece and Europe.
