GLOBAL BOAO EDUCATION CULTURE TECHNOLOGY CONFERENCE

One City
One Office
One Factory

City Office Investment Partnership Proposal

Let one model factory become the industrial calling card of a city

PLATFORM INTRODUCTION

Global Boao Education Culture Technology Conference

Uniting education, culture and technology

A platform for professional exchange and industry collaboration

Supporting talent development and local industries

01 **Education**

Career planning · College guidance · Employment readiness

02 **Culture**

Local heritage · Study-tour content · Cultural exchange

03 **Technology**

Technical exchange · AI applications · Enterprise services

Conference Venue

Main stage · plenary sessions · expert forums

PLATFORM STRUCTURE

Six Industry Forums

Connecting industry needs through professional forums, bringing resources to cities

01

Boao Quality Education Forum

College planning · Career education · Employment preparation

02

Boao International Academicians Assembly

Academic exchange · Technology needs · Applied cooperation

03

Green Energy & International Trade Summit

Energy projects · Product exchange · Trade matchmaking

04

Digital Supply Chain & Agriculture Summit

Specialty products · Supply-demand matching · Digital supply chain

05

Boao Museums & Cultural Exchange Expo

Local culture · Study-tour content · Cultural tourism cooperation

06

Boao Pet Economy Development Conference

Pet food · Supplies · Industry services

CONFERENCE HIGHLIGHTS

Academicians & Senior Officials in Attendance

Bringing together top academic and policy expertise

Academicians

Academician Sun An · Academician Li He · Academician Liu Dequan

Academician Ren Xiaoping · Academician Wu Dongfang · Academician Kou Ziming

Academician Liu Huaxing · Academician Bi Siwen · Academician He Yigang

Academician Deng Zhihua · Academician Wei Qiming

Ministers & Officials

Minister Dai Gongxing · Minister Cheng Lu · Minister Li Yucai

Minister He Keng · Minister Yu Yongzhan · Minister Hou Yunchun

Minister Cheng Lu · Guo Xunchao (Political Commissar)

Names and titles are as recorded on-site during the conference. The assembly convenes leading academic figures and senior policymakers to drive substantive exchange and industry collaboration.

CONFERENCE MOMENTS

A Shared Space for Ideas and Connections

Main Plenary Hall

Where exchange begins — the heart of the conference, hosting keynotes, plenaries and award ceremonies.

International Delegations

Cross-border participation from around the world.

Engaged Audience

Professionals and scholars in active discussion.

Conference venue · On-site participation · Peer-to-peer exchange. Dialogue, showcases and collaborative moments — themed discussions build consensus, and on-site interaction reveals partnership opportunities.

FROM CONFERENCE EXCHANGE TO LOCAL PRACTICE

Documented Local Cooperation

Starting from local needs, organizing exchange, matchmaking and follow-up

1

Zaozhuang, Shandong

June 28, 2026

Office launch · Signing ceremony and office unveiling, connecting local partners with project needs.

2

Xixia, Henan

May 19, 2023

Agricultural support · Cultural tourism market exhibition and livestream base unveiling, combining local product showcase with agricultural exchange.

3

Yangcheng, Shanxi

Nov 19, 2024

Cultural tourism project · A ¥1.28 billion Chanxin Zen cultural tourism complex landing in Runcheng Town, Yangcheng County — exploring "Heyang Shangdao" cultural resources.

MODEL OVERVIEW

One City · One Office · One Factory

Use one industrial anchor to connect factory growth with city development

1

Conference Resources

Professional exchange · Industry showcase

→

2

Local Needs

Industry research · Enterprise visits

→

3

Office Delivery

Top-down communication · Organization & coordination

→

4

Project Landing

Factory cultivation · Service implementation

→

5

Continuous Follow-up

Supervision & support · Feedback & improvement

One Factory · One Office · One City

Cultivate an industry benchmark → Organize city services → Build the city's industrial reputation

Select the Industry, Then Identify the Factory

Cultivation starts from the city's existing industrial foundation

01

Industry Assessment

Has specialty products · Has supporting infrastructure · Has market demand

02

Enterprise Assessment

Has stable products · Has quality management · Has delivery capability

03

Willingness Assessment

Willing to improve operations · Open to exchange · Willing to participate in joint cultivation

Outcome: Develop an initial shortlist of candidate enterprises with on-site research records.

BENCHMARK FACTORY

Cultivating Industry Benchmarks Across Four Capabilities

Focus resources on verifiable, improvable operational areas

01 Product Portfolio

Define product series, specifications and application scenarios. Clarify product and delivery conditions.

02 Quality Management

Improve inspection, traceability and process documentation. Establish quality feedback mechanisms.

03 Brand Presentation

Develop product collateral and enterprise content. Improve visit-showcase capabilities.

04 Market Expansion

Organize supply-demand communication and channel exchange. Continuously follow up on procurement needs.

CITY OFFICE EXECUTION

The City Office: Local Delivery Window

Connecting the organizing committee, enterprises and professional teams

01 **Upward Reporting**

Factory needs · Industry status · Project progress

02 **Downward Implementation**

Confirm projects · Match resources · Drive tasks

03 **Horizontal Coordination**

Enterprises · Schools · Industry associations · Professional teams

04 **Continuous Support**

Track tasks · Coordinate issues · Feedback & improvement

Turn resource matchmaking into actionable work with accountable owners, clear milestones and regular feedback.

CITY INDUSTRY & TRADE

Turn Advantage Industries into City Calling Cards

Build a city industry showcase window through benchmark enterprises

01 **Product Showcase**

Build product portfolio and industry introduction

02 **Experience Sharing**

Organize visits, training and peer exchange

03 **需求对接 Demand Matching**

Connect procurement, supporting services and technical needs

04 **Enterprise Collaboration**

Drive upstream and downstream business cooperation

2,860

county-level regions nationwide as phased expansion target

Phased approach · Pilot → Replication → Cross-city collaboration

EDUCATION SERVICES

One-Stop Growth Service Platform

From college planning to university support to career development

01 College Planning

What major? Which school?

Career exploration, subject selection, school and major comparison

02 University Support

How to study? How to build skills?

Semester planning, skill development, internship preparation and follow-up

03 Career Planning

What role? How to prepare?

Career positioning, resume optimization, interview training and job matching

Continuous planning · Stage tracking · Growth feedback — connecting stage-based planning with real-world action throughout the growth journey.

AI SERVICES

Four AI Products for Enterprise & Industry Development

Content production · Digital workforce · Data asset certification · Industry AGI deployment

01 AIGC Content Production	Enterprise promotion, product showcase, founder IP · Short videos, articles, marketing content · Deliverable: content plans and approved assets
02 Enterprise Digital Workforce (AGI)	Role-based digital employees for customer service, sales, admin · Integrated with enterprise knowledge · Deliverable: deployed digital workers with training
03 Enterprise Data Asset Certification	Data resource inventory, classification, rights documentation · Connect with professional agencies · Deliverable: data asset register and certification records
04 Industry AGI Deployment	Configure systems around industry knowledge and workflows · Deploy in agreed environments · Deliverable: industry knowledge base, applications and O&M

Office role: Discover needs → Connect professional teams → Track delivery → Continuous service. Cooperation models: content services · Custom development · Certification services · Deployment & O&M.

Joining Hands with City Partners

The platform connects resources and expertise; city partners embed locally and drive project delivery

01 **Industry Project Support**

Identify candidate enterprises, define benchmark cultivation needs

02 **Professional Service Support**

Connect education, AI, content production and events teams

03 **Operations Training Support**

Needs diagnosis, project matchmaking and service follow-up tools

04 **Showcase & Exchange Support**

Organize enterprise showcases, forums and industry visits

05 **Media Communication Support**

Coordinate media interviews, features and project promotion

06 **Government Resource Liaison**

Assist with policy information, relevant departments and industry service resources

PARTNERSHIP SUPPORT

How City Offices Generate Revenue

Turn resource matchmaking into deliverable, billable services

01 Benchmark Enterprise Cultivation	Diagnostics, training, brand enhancement · Fees per agreed service project · Billed to enterprise or appointing party
02 Education & Growth Services	College planning, university support, career planning · Per-session or per-stage fees · Billed to students/families or institutions
03 AI & Digital Services	Content, digital workers, certification, deployment · Project-based and ongoing service fees · Billed to enterprises and industry organizations
04 Industry & Events Services	Showcases, factory visits, city-themed events · Planning, organization and execution fees · Billed to event entrusting parties

Revenue principle: Based on actual customer development, project organization, delivery coordination and ongoing services undertaken by the office, revenue and settlement are agreed accordingly. Donations and charitable grants are managed separately.

HOW TO START COOPERATION

The Right Local Partner

For city operating partners committed to cultivating benchmark factories and driving local project delivery

01 Understand Local Industry

Know the region's advantage industries. Able to contact candidate factories.

02 Organizational Capability

Have a dedicated project lead. Able to drive communication and execution.

03 Value Hands-On Service

Start from real needs and first projects. Willing to follow through on delivery and feedback.

04 Long-Term Orientation

Continuously build client and team capability. Establish stable local service mechanisms.

Initial conversation starts with three pieces of information: local advantage industries, reachable enterprises, and the operations team you plan to deploy.

HOW TO START COOPERATION

Three Steps to Launch

From local needs and intent to first project delivery

1

Select Pilot Project

Map local needs, customer groups and available resources. Match education, AI, industry and events. Define first batch and expected outcomes.

Output: First project list with requirements

→

2

Define Plan & Roles

Match resources and professional teams to the selected project. Clarify service plan, responsibilities and fees. Agree on milestones and acceptance criteria.

Output: Implementation plan and cooperation list

→

3

Deliver & Review

Execute per plan, track milestones and issues. Complete deliverables, organize acceptance and feedback. Review and improve for follow-on work.

Output: Acceptance records and next-phase plan

TOGETHER WE BUILD

Join Hands, Write the Next Chapter

Let every gathering become the starting point of the next partnership.

Partner with city operators, bringing together industry, education and AI service capabilities to drive project landing.

One City · One Office · One Factory — Start with one project, build local service capability together.
